EMECH

Electromech Contracting & Trading Co. W.L.L.

Our Vision

As the world is changing all around us, Yimak / Electromech's vision is to continue to thrive as a strong solution partner to our clients for all MEP works' engineering and contracting, finding the most economical and reliable solutions, independent from the manufacturers. For this, our vision is to shape the future of MEP engineering, contracting & Trading and move forward swiftly to prepare what's to come in technology. This vision creates a long-term destination for our services and provides us a road map for winning together with our partners.

Our Mission

As a leading MEP Contracting & Trading W.L.L. company in the region, Electromech's road map starts with our mission, which is enduring. It declares our purpose as a company and serves as the standard against which we weigh our actions and decisions.

- To find most economical and reliable solutions.
- To create value and make a difference with using all technics of engineering to make value engineering and cost saving. To maintain most competent engineers and technical staff to achieve this goal.
- To gain our customers' trust and satisfaction and keeping in touch very closely with our customers/main contractors and to continue our relationship with several projects.
- To be known as the most reliable MEP Contractor.
- To be known as the most economical Trading Solutions in line with client requirements
- To keep QA/QC and HSE activities on top level always with competent and experienced team members.

ELECTRICAL SYSTEMS

CABLE MANAGEMENT ACCESSORIES

Cable Management Systems including conduits, trunking, accessories, industrial cable management systems in PVC and GI are manufactured to meet the Gulf specifications as well as international standards. Our products meet all the mechanical and electrical physical properties of rigid CMS and in any event of fire the emission of the smoke and fume are in the safety levels and much lower than others.
